## Telenav Launches Embedded Navigation for New Opel and Vauxhall European Vehicles

### Embedded Navigation Connectivity Via MyOpel app

SANTA CLARA, Calif., Dec. 18, 2017 (GLOBE NEWSWIRE) -- Telenav, Inc. (NASDAQ:TNAV), a leading provider of connected-car and location-based platform services, announced that European automotive manufacturers Opel/Vauxhall's new infotainment system, Navi 4.0 IntelliLink, now includes Telenav's integrated navigation system. The Telenav navigation system is available in various Opel/Vauxhall models, including ADAM/VIVA, Corsa, KARL, and Zafira. The Telenav navigation system features provide a highly dynamic, relevant, useful and personalized experience for users.

The fully embedded Telenav navigation system allows drivers to quickly search for destinations using Telenav's auto-suggestion and one-box search feature. Users can also use their MyOpel or My Vauxhall app, sending their destinations straight to the Navi 4.0 IntelliLink navigation system (Destination Download), providing a connected navigation experience.

Additionally, users can save their most-used routes and explore their surroundings using the fully interactive moving 2D and 3D roadmaps, or numerous Points of Interest (POI) categories. In addition, the system's voice-recognition capability allows drivers to safely search while staying focused on their driving.

"Providing Opel and Vauxhall with embedded navigation for their new infotainment system is an excellent indicator of Telenav's progress in the European market," commented Hassan Wahla, co-president of the Telenav Automotive Business Unit. "We are pleased to provide their customers access to an easy-to-use, reliable, always-available navigation system."

Telenav's association with Opel/ Vauxhall furthers the company's position as a leading provider of navigation technology globally in the connected-car market.

#### About Telenav

Telenav (NASDAQ:TNAV) is a leading provider of connected car and location-based platform services, focused on transforming life on the go for people - before, during, and after every drive. Leveraging our location platform, global brands such as Ford, GM, Toyota, and AT&T deliver custom connected car and mobile experiences. Fortune 500 advertisers and local advertisers can now reach millions of users with our highly-targeted advertising platform. To learn more about how Telenav's location platform powers personalized navigation, mapping, big data intelligence, social driving, and location-based ads, visit [www.telenav.com](http://www.telenav.com).
